PREFACE

This study book is intended to aid a Bible class in the study of Paul's epistle to the Ephesians. The material herein will not take the student on a verse-by-verse analysis of the text, but is intended to bring attention to significant portions of the text. Rather than providing textual insight from the writer, the booklet has been designed with questions to provoke thought and further study on the student's part, so that principles and lessons applicable for the Christian's life can be learned.

The usefulness of the material, and the success of the Bible class is primarily dependent upon the preparation which is given by each participant. Verse references from Ephesians are provided with each question. These are given as a starting point for answering the questions. Seldom will a question be fully answered and all the relevant points of a discussion exhausted by the given verses. Students are encouraged to look beyond the designated texts for related passages which will help to answer questions and reveal the lessons to be learned from the inspired record. Some questions given may require diligent investigation on the student's part to completely answer.

It is my hope that the questions provided will touch on all the important lessons which can be gleaned by the child of God today from these books. However, the class should not be limited to these questions. Perhaps segments of text which the given questions do not directly deal with, or detailed points which are found in the text will provoke questions on the student's part. Such questions are welcomed and encouraged. Though the intent of this class material is to benefit us for Christian living today, the class should also be conducted in such a manner that we also come to a better appreciation of the events and customs which are found in the times of old.

May this workbook be used to the glory of God and the strengthening of saints.
